Atayal economy has developed only one special profession, for the exercise of which there is always a market and which is paid in wages. With this one exception, the families provide for all of their needs themselves, on their own fields, which are theirs as long as they use them. The size of the fields is just large enough to support the family and to keep the family supply of labor occupied. Everything that has to do with profits is lacking, such as the production and sale of surpluses, competition, ground-rent, interest, and employers' profits, as well as all the more important phases and ramifications of economy, from communications to capital and credit.
